NOTICE

03-08-2018

All the faculty are hereby informed that, our college is going to organize one day workshop on "Awareness of patents" those who are interested register their name on before of 06-08-2018.

Details of the Event

Venue:- Mechanical Seminar Hall BCOE college Campus Kanhor. Badlapur (W)

Date:- 06/08/2018

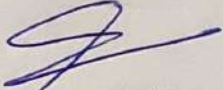

Time:- 10.30 am

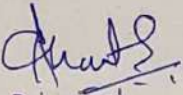

Name of the Speaker:- Dr. Subhash Nathu Barai

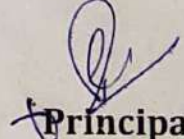

Beneficiaries: Faculty & BE Students.

Organizing unit: - Institute Level.

For further queries, you can get in touch with undersigned looking forward to you active cooperation.

WORKSHOP ON AWARENESS ON PATENTS,

Venue: - Mechanical Seminar Hall

Beneficiaries: - BCOE Faculties & BE Students

Date: - 06/08/2018

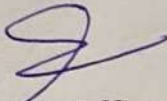

Name of the Speaker:- Dr. Subhash Nathu Barai

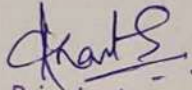

No. of student's volunteers: -10

Organizing Unit: BCOE Faculty

A patent gives its owner the only authority to stop anyone from using their original concept or the goodwill they have built up for their goods and services by using importing, or offering for sale the patented innovation.

The student council BCOE volunteers and Faculties with great enthusiasm organized this activity was conducted for enhancing the knowledge & Awareness.

Report on "How to write a Quality Research paper"

Venue: - Mechanical Seminar Hall.

Beneficiaries: - BCOE Faculties

Date: - 20/08/2018

No. of student's volunteers: -8

Organizing Unit: BCOE Faculty

A research paper is a type of academic writing that provides a detailed analysis implementation and evaluation of a single topic, based on empirical proof. Research papers are a base of modern science and the most effective way to contribute information across a wide area. People must become familiar with research papers so that researchers can specify their work plainly and with corresponding evidence, so that other researchers can use the paper in their own research.

Writing a research paper is different from writing a research proposal. Writing research papers starts by chasing a research paper topic by conducting a preliminary research. After the research, the paper outline must be designed and the draft paper must be written with a proper introduction and compelling with a body of text.

Subject: Letter requesting to Conduct workshop on "Innovation and Research"

Respected Sir,

I undersigned staff of BCOE. requesting you sir to conduct a 1 day Workshop for the Teaching Staff & Students of BCOE on "**Innovation and Research**". Sir as you knows that this Seminar will benefit the teaching staff and students of TE & BE of all branches who are interested in research and further studies.

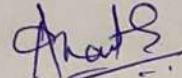

So sir I would like requests you to please give us your valuable time and convey us the date and time to us for the smooth conduct of workshop. Thanking you

Yours Faithfully

Prof. Kiran Thorve.

Asst Prof.

A report on "Innovation and Research"

Details of the Event

Venue:- Mechanical Seminar Hall, BCOE

Date:- 3/09/2018

Time:- 10.30 am

Participants: - 23

Speaker:- Dr. Sujata V. Mallapur

Beneficiaries: Faculty of BCOE

During the workshop Dr. Sujata V. Mallapur has focused and provided a guideline about innovation and research. This workshop showcased innovative ideas and focused on new research works for higher education sectors and working sectors. Innovation and research training workshop was for students, staff and Researcher. It facilitated our team by providing step by step best innovation practices, this acted like a pipeline with new ideas and strategies to pursue and build a more collaborative work which leads to the development of Academics.

APPRECIATION LETTER

To,

Dr. Sujata V. Mallapur

F-201, Om Society, Thane(W),

Maharashtra

I would like to thank Dr. Sujata V. Mallapur from the bottom of my heart for taking time from your busy schedule to be the guest speaker at our workshop on Innovation and Research. Your presence and wise words helped magnify our cause in the best possible way. Our workshop was a huge success. All thanks to your enlightening words that inspired so many people out there. This workshop had definitely helped the upcoming engineering and future entrepreneur who will have good ideas about the future of automation in industries.

I look forward to our next interaction soon. Wishing you all the best for your future.

Report on seminar conducted on "Basic concepts of Research Methodology"

Venue: - Seminar Hall, Mechanical Engg. Dept. BCOE, Badlapur

Beneficiaries: Teaching Staff & Students of BCOE

Date:- 24/09/2018

Name of the Speaker:- Dr. Subhash Nathu Barai

No. of student's Participants: -13

No. of staff Participants: - 10

Organizing unit: - Institute level, BCOE

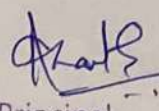

Program Co-ordinator:- Prof. Kiran Thorve (Mechanical Engg. Dept.)

For the seminar 13 students of various branches participated along with 10 teaching staff.

The seminar focused on various topics like

- Types of research- Fundamental research, applied research, objective research.
- What is research process and how to start with?
- Research design & its importance.
- 3 research approach.
- Research design process.
- Sampling, Data & its types.
- Literature reviews.
- Experimentations.
- Presentations of reports.

Education is a very powerful tool for social change and transformation and innovative practices are the only way to enhance the quality of our education. The creation and application of novel ideas, technologies and approaches within the field of studies. The application of innovative teaching and learning methods is critical learning. By keeping this in mind, the Department of Electronics & Telecommunication Engineering tries to provide the students with innovative ideas for learning mechanisms that would ensure a wholesome learning experience for the students. The Internet in particular is changing every activity of our daily lives. Today just about every advertisement on television, radio and in print carries a web address. It is not unusual for consumers to research a purchase on the Internet before buying.

Venue: - TPO Hall Bharat College of Engineering Kanhor, Badlapur (W)

Beneficiaries:- Civil Engineering Faculties & BE Students

Date:- 28/01/2019

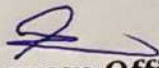

No. of student's volunteers: -13

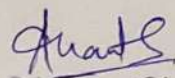

Organizing Unit: Under the Civil Engineering Students Associations Committee.

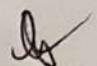

Activity Mapping with Program outcome: PO7

The primary focus of any engineering work in the technical education system is to develop the much needed industry relevant competency & skills.

Engineering sector has completed number of projects with conventional techniques to meet the needs of the society. But, in recent time, it is observed that, the various new innovative techniques are being used worldwide, which our practicing engineers, are also partially using to achieve their goals. The emerging trends in Civil Engineering help to complete the undertaken projects within prescribed schedule, saves the natural resources and make the projects eco-friendly. This Seminar was very helpful to making awareness about soft computing techniques, new materials, advanced machineries, sustainable resource management and advancement in Civil Engineering.

Date:- 05/08/2019

No. of student's Participants: -20

No. of staff Participants: - 25

Organizing Unit: BCOE Faculty

Activity Mapping with Program outcome: P07

A patent does not give its owner the authority to stop anyone from using their original concept or the goodwill they have built up for their goods and services merely by using, importing, or offering for sale the patented innovation. Instead, a patent grants the owner the exclusive right to make, use, and sell their patented invention for a certain period, typically 20 years from the date of filing. During this time, others are prohibited from making, using, selling, or importing the patented invention without the patent holder's permission. The purpose of a patent is to encourage innovation by providing inventors with a limited monopoly on their inventions in exchange for disclosing their invention to the public.

It appears that the student council, BCOE volunteers, and faculties have organized an activity aimed at enhancing knowledge and awareness. This is a commendable initiative, as activities like these can play a crucial role in the educational and personal development of students and individuals. These activities can range from workshops, seminars, awareness campaigns, or any other educational events that help participants gain new knowledge and understanding about various subjects.

A research paper is a form of academic writing that offers a comprehensive analysis, implementation, and evaluation of a single topic. It is based on empirical evidence and often serves as a critical foundation of modern science.

Research papers are fundamental to the scientific community as they serve as a means to share information across a wide range of fields. They allow researchers to present their work clearly and provide supporting evidence. Other researchers can then use these papers to inform their own research. It's important to emphasize that writing a research paper is a detailed and often time-consuming process. Researchers need to provide a clear and logical presentation of their work, supported by empirical evidence and relevant citations. This process contributes to the advancement of knowledge and the scientific community as a whole.

The workshop led by Dr. Shadab Pattekari primarily centered on the topics of innovation and research. The workshop was attended by a diverse group, including students, staff, and researchers, suggesting its relevance to individuals across various sectors in academia and the workforce. The workshop provided a platform for showcasing innovative ideas, indicating that participants had the opportunity to present and discuss creative and groundbreaking concepts.

It also emphasized the importance of new research works, highlighting the significance of ongoing research activities. This workshop appears to have provided a valuable platform for individuals in higher education and working sectors to enhance their knowledge and skills related to innovation and research. Such initiatives can significantly contribute to personal and professional development, as well as to the growth and progress of the academic and professional community.

The principal,

BCOE, Badlapur

Subject: Letter requesting to Conduct Seminar on Basic Research Methodology

Respected Sir,

I undersigned staff of Mechanical Engineering Dept. requesting you sir to conduct a seminar for the Teaching Staff & Students of BCOE on "**Basic concepts of Research Methodology**". Sir as you knows that this Seminar will benefit the teaching staff and students of TE & BE of all branches who are interested in research and further studies.

So sir I would like requests you to please give us your valuable time and convey us the date and time to us for the smooth conduct of seminar. Thanking you

Yours Faithfully

Prof. Nandu Durge .

Report on seminar conducted on "Basic concepts of Research Methodology"

Venue: - Seminar Hall, Mechanical Engg Dept. BCOE, Badlapur

Beneficiaries: Teaching Staff & Students of BCOE

Date:- 16-09-2019

No. of student's Participants: -13

No. of staff Participants: - 10

Organizing unit: - Institute level, BCOE

Staff Co-ordinator:- Prof. Nandu Durge (Mechanical Engg. Dept.)

For this seminar 13 students of various branches participated along with 10 teaching staff.
The seminar focused on various topics like

- Types of research- Fundamental research, applied research, objective research.
- What is research process and how to start with?
- Research design & its importance.
- 3 research approach.
- Research design process.
- Sampling, Data & its types.
- Literature reviews.
- Experimentations.
- Presentations of reports.

Seminar on Innovative practices in ETC , COMP

Details of the Event

Venue:- TPO Hall

Date:- 14/10/2019

Time:- 10.30 am

Beneficiaries: Faculty & BE Students.

No. of student's Participants: -15

No. of staff Participants: - 6

Organizing Unit: BCOE Faculty

Activity Mapping with Program outcome: P07

The Department of Electronics & Telecommunication Engineering's endeavor to introduce innovative ideas for learning mechanisms is commendable. Embracing novel teaching methods, technologies, and approaches can significantly impact the quality of education and student engagement. In this digital era, the internet plays an instrumental role in transforming how we learn, interact, and access information. Its pervasive influence on various aspects of life, including education, cannot be overstated. Students now have an unprecedented wealth of information at their fingertips. Online resources, digital libraries, video tutorials, and interactive learning platforms have revolutionized the educational landscape. The adaptation and incorporation of internet-based resources in education foster critical thinking, digital literacy, and the development of skills essential for the 21st-century workforce. For the Department of Electronics & Telecommunication Engineering, leveraging these technological advancements within the realm of education can provide students with a dynamic and comprehensive learning experience. Encouraging them to use the internet not only for research but also as a tool for collaboration, creativity, and exploration can greatly enhance their educational journey and prepare them for the digital future.

Organizing Unit: Under the Civil Engineering Students Associations Committee.

Activity Mapping with Program outcome:

The primary focus of any engineering work in the technical education system is to develop the much needed industry relevant competency & skills.

Engineering sector has completed number of projects with conventional techniques to meet the needs of the society. But, in recent time, it is observed that, the various new innovative techniques are being used worldwide, which our practicing engineers, are also partially using to achieve their goals. The emerging trends in Civil Engineering help to complete the undertaken projects within prescribed schedule, saves the natural resources and make the projects eco-friendly. This Seminar was very helpful to making awareness about soft computing techniques, new materials, advanced machineries, sustainable resource management and advancement in Civil Engineering.

Report on seminar conducted on "Industrial Automation"

Venue: - Seminar Hall, Mechanical Engg. Dept. BCOE, Badlapur

Beneficiaries: Teaching Staff & Students of Mech Engg. Dept. BCOE

Date:- 03/02/2020

Name of the Speaker:- Dr. G.V. Thakre (BE, M.Tech. Phd. .)

No. of student's Participants: -35

No. of staff Participants: - 10

Organizing unit: - Mechanical Engg. Dept. , BCOE

Staff Co-ordinator:- Prof. Nandu Durge (Mechanical Engg. Dept.)

For the seminar 35 students of Mechanical branches participated along with 10 teaching staff of Mechanical engg dept. . The seminar focused on various topics like

- Automation, its types , Industrial automations, control system & PLCs.
- Components of PLCs, Program Language, Gates and its types
- Advantages of PLCs, Application of SCADA
- Leading software of SCADA
- Advances in automation
- Application of automations.

Activity Mapping with Program outcome: P07

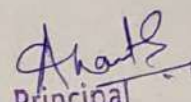

It sounds like **Dr. Shubhas Barai**, lecture covered a comprehensive overview of the patenting process, from understanding the key aspects of patent specifications to the steps involved in filing a patent. Here's a breakdown of the steps typically involved in the patent application process:

Filing the Patent Application: Once the prior art search is completed and the uniqueness of the invention is established, the next step is preparing and filing the patent application with the relevant patent office. This application includes detailed descriptions, claims, and often accompanying diagrams or figures to illustrate the invention.

Grant of Patent: If the patent office is satisfied with the responses and the invention meets all patentability criteria, they grant the patent. This provides Throughout this process, it's essential to adhere to the patent laws and regulations of the specific jurisdiction where the patent is being sought. The laws can vary from country to country, and the process may have nuanced differences based on the jurisdiction.

Understanding these steps helps both faculties and students comprehend the complexities and requirements involved in securing a patent for their innovations, thereby safeguarding their intellectual property.

No. of Staff Participants: - 04

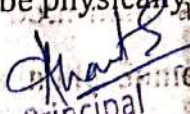

Organizing Unit: - Student Council, BCOE

Health and fitness is the key to a long, active and enjoyable life. Health is the actual Wealth that a person can retain. This webinar was about staying healthy and fit, and create awareness among others as well being healthy and fit in simple terms means taking good care of the body. We should remember that a healthy mind resides only in a healthy body. Good health of both mind and body helps one maintain the required energy level to achieve success in life. Some tips to maintain fitness and also one's mental state.

- Exercise boosts our mood, concentration and alertness, but improves our cardiovascular and overall physical health.
- Exercise doesn't have to be strenuous, structured or take a long time to have benefits.
- People who exercise regularly have better mental health and emotional wellbeing, and lower rates of mental illness.

In this webinar 36 students and 04 staff have participated actively and took the benefit of this webinar and promised to be physically and mentally fit.

Computer plays very important role in our day today life. Bharat College of Engineering has organized an online seminar regarding Artificial Intelligence: Era of Revolution where Prof. Nilesh Yadav had taken the seminar in which he had delivered the topic wise details about the new edge technology of Artificial Intelligence and its application in our day today life. It was very fruitful and interactive session where students actively participated in the session in online mode asking interesting questions about the jobs and relevant skills to get the desired jobs in Artificial Intelligence.

"Python: Basic Approach"

Venue: - Campus, BCOE.

Beneficiaries: - Students of Computer and AI&ML.

Date: - 10/08/2021

No. of student's volunteers: - 72

No. of staff Volunteers: - 5

Organizing Unit: - Computer Engineering Department, BCOE.

Python is a popular programming language. It can be used on a server to create web applications. Python uses garbage collection and dynamic typing. It supports multiple programming paradigms, including structured (particularly procedural), object-oriented and functional programming. It is often described as a "batteries included" language due to its comprehensive standard library. Department of Computer Engineering has organized the Basic introductory Seminar on Python on 10/08/2021 at 11.00 AM. Prof. Nilesh Yadav elaborated the basic fundamental details of Python. Students of Computer Engineering and AI&ML departments both were beneficiaries for the Program. Total 72 Students from both the department were present along with 5 Teaching Staff. Overall entire session was very interactive and Productive one.

REPORT

Report on Webinar conducted on "The Role of Conversational AI in Higher Education " on 08/02/2022

Venue: - ONLINE

Beneficiaries: students

Date:- 08/02/2022

No. of student's Volunteers: -10

No. of staff Volunteers - 5

Organizing unit: AI & ML Department BCOE

For the Webinar of 10 volunteer students of AI & ML departments along with 5 teaching staff of this college has conducted this webinar .The Webinar focused on

- Conversational AI and learning support/learning development
- Conversational AI and student engagement/academic performance/academic success
- The impact of virtual agents and/or virtual worlds in HE.
- The impact of having 24/7 conversational support to teaching and learning in HE (e.g. digital human teachers, Q&A chatbots, virtual classrooms, etc.)
- Theoretical frameworks for the inclusion of Conversational AI in Higher Education.
- Virtual worlds and Conversational AI.
- Equity, diversity and accessibility opportunities and risks in the use of conversational AI
- Appropriate ethical and/or academic integrity uses, including potential risks, of using Conversational AI in education.

This is to inform that Computer Engineering Department of BCOE, Badlapur (W) is organizing seminar on "Seminar on Ethical Hacking" for students of Computer and AI&ML streams.

Interested student can register their names to the student coordinator and attend the seminar.

Details of the Event

Venue: - Campus, BCOE.

Date:- 09/09/2021

Time: - 11:00 AM

Beneficiaries: Students of Computer and AI&ML Department.

Organizing unit: - Computer Engineering Department, BCOE.

Student Coordinator

1. BHISE RIYA PRASHANT (TE)
2. KALE ROHAN RAMAKANT (TE)

"Seminar on Ethical Hacking"

Venue: - Campus, BCOE.

Beneficiaries: - Students of Computer and AI&ML.

Date: - 09/09/2021

No. of student's volunteers: - 53

No. of staff Volunteers: - 4

Organizing Unit: - Computer Engineering Department, BCOE.

Ethical hacking is an authorized attempt to get illegal access to a computer system, data, application, or infrastructure of the organization. This hacking merely aims to inspect the network, which is otherwise vulnerable to being destroyed or exploited by malevolent hackers. Cyber security engineers are employed by the organization to carry out various tasks aimed at testing the system's defenses. To learn how to improve the network or system's security, they collect and analyze data. Much needed informative seminar has been organized by Computer Engineering Department of Bharat College of Engineering, Badlapur on 9th September 2021 at 11.00 AM Prof. Tarun Sharma delivered the seminar which includes basic introduction about ethical hacking, classification of hackers, email protocols, Security etc. Seminar was interactive and fruitful. Both Computer and AI&ML students got benefited from this Seminar.

Workshop on Awareness on Patents,

Venue: - Mechanical Seminar Hall Bharat College of Engineering Kanhor, Badlapur (W)

Beneficiaries:- BCOE Faculties

Date:- 26/07/2022

No. of student's volunteers: -08

Organizing Unit: BCOE Students

Activity Mapping with Program outcome: P07

The Research Methodology Workshop was tailor-made to facilitate the academic requirements of the Post-Graduate faculties community at the CUTN. The one-day trans-disciplinary seminar was conceptualised with the intention of knowledge-building on the fundamentals of research concepts, methodologies and processes in addition to providing hands-on training in synopsis/thesis writing with inputs on the essentials of academic writing.

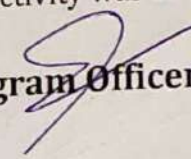

The objectives of the workshop were

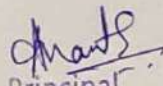

to develop knowledge on the fundamentals of research

to build knowledge on research design, application & data analysis

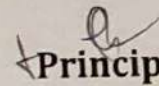

to develop skills for synopsis/thesis development & academic writing

The student council BCOE volunteers and Faculties with great enthusiasm organized this activity was conducted for enhancing the knowledge about Research Methodology .

Seminar on IPR & Patent File

Venue: - Mechanical Seminar Hall Bharat College of Engineering Kanhor, Badlapur (W)

Beneficiaries:- BCOE Faculties & BE Students

Date:- 12/08/2022

No. of student's volunteers: -10

Organizing Unit: BCOE Faculty

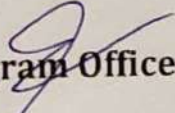

Activity Mapping with Program outcome: P07

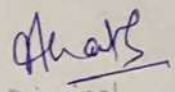

In the field of IPR and patent filing, he shared his knowledge and experience with the Faculty and Research Scholars from all over the Nation. He discussed the different types of IPR, such as patents, trademarks, copyrights, and trade secrets, and how they can be used to protect an individual's or a company's unique ideas and inventions.

The workshop also covered the basics of patent filing, including how to conduct a patent search, how to draft a patent application, and the various steps involved in the patent examination process. The expert also shared valuable tips and advice on how to increase the chances of a successful patent application.

Overall, the workshop on IPR & Basics of Patent Filing at Career Point University was a great success. It provided Faculty and Research Scholar with valuable knowledge and insights on the importance of IPR and patent filing and how to navigate the patent application process. It also helped to raise awareness among Faculty and Research Scholar of the various career opportunities available in the field of IPR and patent filing.

The student council BCOE volunteers and Faculties with great enthusiasm organized this activity was conducted for enhancing the knowledge & Awareness.

Seminar on Startup And Entrepreneurship,

Venue: - Mechanical Seminar Hall Bharat College of Engineering Kanhor, Badlapur (W)

Beneficiaries:- BCOE Faculties & BE Students

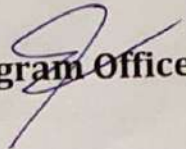

Date:- 14/09/2022

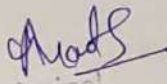

No. of student's volunteers: -10

Organizing Unit: BCOE Faculty

Activity Mapping with Program outcome: P07

A startup is a new and emerging business, typically in the early stages of operation. Startups are characterized by rapid growth and scalability, and they often rely on funding from investors, grants, or other sources to get off the ground and grow. Startups often try to disrupt established markets or create new ones, and as a result, they can be high-risk ventures. The student council BCOE volunteers and Faculties with great enthusiasm organized this activity was conducted for enhancing the knowledge & Awareness.

Seminar on IPR Issues and Challenges

Venue: - Mechanical Seminar Hall

Beneficiaries: - BCOE Faculties & TE, BE Students

Date: - 07/10/2022

No. of student's volunteers: -10

Organizing Unit: BCOE Faculty

Activity Mapping with Program outcome: P07

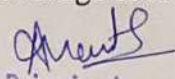

The expert explained the basics of Intellectual Property Rights, its importance, types of IPR's, IPR rules, emerging issues, challenges and their significance in different sectors like industries, research organizations, agriculture etc.,.

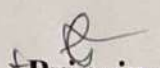

Eminent speakers gave brief description on intellectual property rights, applying for the patent, filing a patent, protecting the patent against violation and different procedures to be followed to get a Patent right in various countries. Also, they explained the various practical issues on IPR for invention and revoking and also about the emerging issues and challenges in IPR, benefits of IPR, how to protect IPR and various management policies for the protection of IPR. Faculty, Research Scholars and M.Tech Students nearly 55 members got benefited from his lecture.

They got a very huge response from the audiences. Audience had asked many valuable questions on emerging challenges and issues on IPR and patents, totally the session was very interesting and fruitful.

The student council BCOE volunteers and Faculties with great enthusiasm organized this activity was conducted for enhancing the knowledge & Awareness.

Activity Mapping with Program outcome: P07

IPRs play a crucial role as the legal vehicle through which either the transfer of knowledge or the contractual relationship is affected. Alternatively, knowledge may be exploited in-house, in which case the role of IPRs is to block imitating competition. Commercialization can be defined as the process of turning an invention or creation into a commercially viable product, service or process. Commercialization may require additional R&D, product developments, clinical trials or development of techniques to scale-up production prior to taking the results of research to market

“Seminar on Copyrights and IPR”

Venue: - Mechanical Seminar Hall Bharat College of Engineering Kanhor, Badlapur (W)

Beneficiaries:- BCOE Faculties & TE, BE Students

Date:- 30/01/2023

No. of student's volunteers: -10

Organizing Unit: BCOE Faculty

Activity Mapping with Program outcome: P07

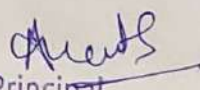

In today's globally competitive environment, intellectual property has placed itself on a pedestal in the context of economic growth and is becoming increasingly important. Intellectual Property (IP) is the fuel that powers the engine of prosperity, fostering invention and innovation. Seminar on Intellectual Property Rights” on 9th October, 2014 at Hotel Landmark, Guwahati and on 10th October at Vivekananda Kendra Institute of Culture, Guwahati. The focus of the seminar was to promote the creation, protection & enforcement of the Intellectual Property Rights amongst various stakeholders

This guide is a brief introduction to copyright relevant to students, researchers and lecturers. It introduces the basic concepts of copyright, including Copyright, Creative Commons licensing and Fair Dealing. It will also provide some quick guidelines on how to avoid infringing copyright law.

Following correct copyright law is closely linked to avoiding plagiarism and referencing correctly, which the library has guides on.

The student council BCOE volunteers and Faculties with great enthusiasm organized this activity was conducted for enhancing the knowledge & Awareness about Copyright and IPR and why it is important.

Seminar on Understanding the difference between IPR, Copyrights, Plagiarism risk,

Venue: - Mechanical Seminar Hall Bharat College of Engineering Kanhor, Badlapur (W)

Beneficiaries:- BCOE Faculties & BE Students

Date:- 16/02/2023

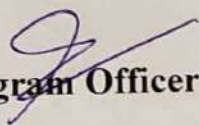

No. of student's volunteers: -10

Organizing Unit: BCOE Faculty

Activity Mapping with Program outcome: P07

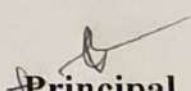

Most students were born in a time where online technology made copying and distributing all kinds of information very easy and fast to do. They are often unaware of or misunderstand intellectual property issues, and are surprised when they are accused of plagiarism or are given a takedown notice for something they posted online. Some students may knowingly plagiarize or infringe on copyright due to various influences. Educational experts agree students need to understand the considerations of working with intellectual property, whether they are creative (e.g., music, poetry, images) or scholarly works (books, text, data, or research).

As creators of information and scholarly or creative works, students should also recognize most of their work has the same type of protection as those done by professionals. Students have the right to develop, sell, distribute, and copy their work, and it deserves to be treated ethically by others! It's never too early or late for students to learn about intellectual property and how to respect it.

“Workshop On Research Paper Writing”

Venue: - Mechanical Seminar Hall Bharat College of Engineering Kanhor, Badlapur (W)

Beneficiaries:- BCOE Faculties & TE, BE Students

Date:- 24/03/2023

No. of student's volunteers: -10

Organizing Unit: BCOE Faculty

Activity Mapping with Program outcome: P07

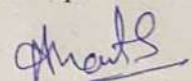

It has been observed that university/college teachers and researchers face genuine problems in producing quality research papers especially in peer-reviewed, CARE listed or internationally acclaimed journals. The CSSP has taken various steps for making positive intervention in minimizing that problem. We are organizing two-day online workshop (28-29 September 2023) to train social science scholars/teachers in the techniques of writing quality research papers. We have roped in some of the best experts on the subject.

After the Workshop, you would be able to know the following –

- What is Research Paper?
- Types of Research Papers
- How to select the Topic?
- How to formulate a Research Question?
- How to Structure a Research Paper?
- Stages in Research Paper Writing
- References, End Notes or Foot Notes
- Ethical Issues in Writing
- Why Journal Editors reject your Paper?

Special emphasis will be made on solving problems faced by participants in conceptualizing and actual writing of research papers. Guidance will be provided for publication and selection of journals.

The student council BCOE volunteers and Faculties with great enthusiasm organized this activity was conducted for enhancing the knowledge about How to write Research Paper and all the topics related writing research paper.

Workshop Contents

- Generating and choosing an idea
- Connecting with the reader
- Literature review (with specific focus on review based papers)
- Making claims and supporting them
- Drafting a research paper
- Citations and referencing
- Abstract, title and keywords
- Plagiarism and ethics of paper writing
- Top reasons for rejection of papers

To analyse the productivity of post-Soviet countries, adjusted by population, in terms of research papers published and the proportions of those papers indexed by Scopus and the Web of Science. Methods: Relevant data on the journals indexed in Scopus and the Web of Science were analyzed. Where required, data were also extracted from Russian Science Citation Index databases and websites of journals.
